Yes, and yes!

There's a 2 6BH6s and an OA2 (with the famous crispy critter 18K resistor, of course!) voltage regulator.

Ranger II has 2 6AU6s & an 0A2 in VFO area. Y'all don't suppose EFJ used the lo-fil-drain tubes & just cloned the Ranger ckt do ya?

I've a pal that has one & I'll get a scan & put it on bama.edebris, etc next week

I have a set of GONSET Twins: G66B Receiver, G77 Transmitter and Power Supply/Modulator. I actually made a QSO on 80 AM. Also a spare G77 and Power Supply/Modulator. Also have the ORIGINAL Manuals for both. \$250 the Lot, BUT YOU HAVE TO PICK IT UP. I cannot lug it out to get packed & shipped (two bad knees).

I am in Lexington, MA (02421).

Gang-

Here are the real basics of how to keep me happy, the list noise-free,
and everyone able to enjoy BoatAnchors... Simple, easy, workable...

Do not send SPAM-type e-mail messages to the list.

Do not send attachments (attached files) of *ANY* sort to the list.
This includes HTML shortcuts, v-cards, GEDCOM files, zipped files, and
ANY other type of attachment.

Do not EVER forward virus warnings (which are 99%hoaxes) or send chain
letters to the list.

Do not use HTML or RTF (rich text format) in messages sent to the
list.

DO keep e-mail messages to the list on topic and appropriate.

Do not post commercial messages.

Please refrain from posting "Ebay" type auction notices. Refrain from
"seen on EBAY" posts...

DO be polite.

Do not flame other members of the list.

DO be considerate of the list members and list resources.

DO have fun!

Ok gang! What is the BABA site. Is it for all of us? If so, how does
a user get access?

I have heard of it for quite a while now from time to time.

BAMA is the BoatAnchor Manual Archive, the mirror of which is located -
<http://bama.edebris.com/manuals/> I gave you the mirror because the main
site has a limited number of user slots and is busy much of the time.

It's plain old anon FTP, very easy to use, just use your browser to
click on the category
then the model, etc.

The BABA site is a site of cheesecake pinups of sheep, and is off-topic
for the BoatAnchor list... heehee

To the Daring Boatanchorites
Has anybody been successfull in replacing crystals with a sig. gen.?
If so, could you let me in on the procedures.
I am a bit chicken in trying it on my RCK receiver, 110 to 160megs.
Andre
P.S. I also enjoy a good laugh:-)

Just courious if anyone has heard of the subject: TXC 116C.

There's a rack of transmitter in a not too distant antique store labled
"1942 Coast Guard" Radio - it's NOT the fax machine. Looks good and
price is reasonable, altho my little skiff is well anchored at the moment.
One front panel folds down to reveals a set of controls and a chart,
I think marked local oscillator 3000khz and output at 162mc altho
I could be way off base there, just going from memory of a brief
look.

Subject: TNT Transmitter Efficiency?
Content-Type: text/plain; charset=us-ascii; format=flowed
Content-Transfer-Encoding: 7bit

With the AWA 1929 QSO Party (see
<http://www.antiquewireless.org/amrad.htm>) coming up next weekend I got
my TNT transmitter down for a tuneup (see
<http://www.io.com/~nielw/tnt/tnt.htm>) For the first time I decided to
measure the output power. I was surprised to find only about one watt
out for 10 watts input. Switching over to untuned link coupling into a
pi-network didn't help either.

Any similar experience with push-pull oscillators? Is 10% about all I
should expect?

73,
Niel

to all,

It is disappointing that this great man only had a one line Obit.

I am writing to Legacy.com to see if they will put a guest book up for Ed.
I sent them

I would like to see a guest book for Ed. Many of us in the ham radio community will miss him. I would expect to see several entries in his name.

73, John Dilks, K2TQN

old message....

It is disappointing that this great man only had a one line Obit.

I am writing to Legacy.com to see if they will put a guest book up for Ed.
I sent them

I would like to see a guest book for Ed. Many of us in the ham radio
community will miss him. I would expect to see several entries in his name.

A non-list acquaintance is looking for some BC-610 tuning units to outfit
his newly acquired transmitter. Please let me know what extras you might
have.

While I am on the 610 subject, has anyone successfully used a TU-47 (2-2.5
Mc) tuning unit on 160 meters? I am looking for one.

Thanks,

Brian WA5UEK

If you have any extra BC-610 tank coils, this fellow is looking for them
as well.

I know this has been asked 100 times so I know many of you have a good
answer for this! My KWM-2 PTT relay hangs up when I release the mic ptt.
What is the likely culprit?

Thanks in advance!

Anchors, I need schematic and manual/ alignment instructions for 75A2. I have tried BAMA, it is not available. If you are willing to copy, or let me do it, i will gladly pay all expenses. Receiver is my own and a recent acquisition. Thanks Russ wb3fau.

Gang-

Please accept this periodic posting as it is intended:
A suggestion that will help everyone on the list...

If there is a problem with your email, i.e., the list suddenly stops coming to you, or if you have problems with someone else's mail, PLEASE address any questions to, and seek help from:

listown@nanniandjack.com

There is really no one on the list who can help you with a problem, and if I don't happen to see your post, nothing will happen, except you may irritate the other list members... needlessly.

This is *especially* true of the "XXXX YYYY your mail is bouncing, please send me a good address"

If your mail to this person is bouncing, in all likelihood, either you have the address a bit wrong, or s/he isn't receiving mail from ANYWHERE *especially* not from the list, which is delivered as "Bulk!"

PLEASE treat the list as a symposium.

In such an environment, with many folks attending who have paid to be here, it is unlikely you would take up the symposium's resources to solve an individual problem with your seating...

So, if you encounter a problem, PLEASE remember to send your questions to me, the one person who can help, at:

listown@nanniandjack.com

Thanks for your attention
